About the Photo Contest **13**

Winners **14**

Honorable Mentions **20**

Aloha! It is my distinct pleasure to welcome and extend my warmest aloha to everyone attending the second annual Photocon Hawai'i. For the second year in a row, this trade event showcases the talent of our local photography and video community, as well as setting itself apart as the premier educational and informational trade event for professional, amateur, and enthusiast photographers.

Once again, event producer Ric Noyle has planned an exciting event which

brings with it a chance for our local photographers and videographers to get hands-on experience with the newest technology in their field, and learn from a variety of experts and world class keynote speakers.

Last year, independent judges announced the first ever winner of the "Essence of Hawai'i photo contest." Judges began with over 600 images, narrowing this list down to 125 extraordinary photos. From there, judges selected the images that would appear in the first iteration of this very journal. These images, submitted by professional and amateur photographers, along with a handful of students, were truly astounding. The final selections

showcased our beautiful Islands, and put the talent of our creative community on full display. I believe this is the most beautiful place in the world to live, and these photos bring that belief to life.

I sincerely hope this year's event will be an opportunity for everyone involved to further their skills, and experience personal and professional growth. I have no doubt this year will be yet another success, and look forward to more exciting events in the years to come.

Mayor Kirk Caldwell

**Welcome to PhotoCon Hawai'i. Yahoo - number two!**

I have been very fortunate working as a commercial photographer here in Hawai'i. A truly great place to live. I have an incredible family, lots of good friends, and wonderful clients. I look for no more in life. It is always good to be happy with what you have and I certainly am happy to have all of the many blessing and support that I do have. It is with this support from our local photo and video industry that I have been able to produce an event like PhotoCon Hawai'i. In the past we all would have had to travel to the mainland, to attend one.

I thank Francis Mau of PinePub for his incredible skills and at times great patience to guide me and our web site, so well. Fortunately, for me Theresa Ang came into my life to keep us all on track and to hold my feet to the fire, on deadlines.

I thank Nella Media with Jason, Lisa, Ara, Aja, Michelle, Skye, and Mitchell keeping me inline, holding my hand and setting the compass for the "brand" that we have today.

The very fabric of the Hawaii photo and video industries embraced PhotoCon Hawai'i and have given me multiple reasons to build and continue to build with all of the positive feedback and confidence, that each one of them showered apron me.

I have so many people to thank. Josh Strickland and his mighty team over at Hawaii Camera for giving us all the ability to rent gear at moments notice. Tony Zenga of Pro Camera who has built one of the most well stocked and exciting camera stores, in Hawaii. Pat and Neal of

Kaimuki Camera. With the rapid decline in photo labs Pictures Plus has demonstrated that with great skill and state of the art technology that they can combine extraordinary talented staff and provide all of us in Hawaii with quality printing and frames. Thanks to Kent Untermann and his entire team and especially to Elyse Bojorquez for the exquisite printing and great support for The Essences of Hawai'i photo exhibit and tour.

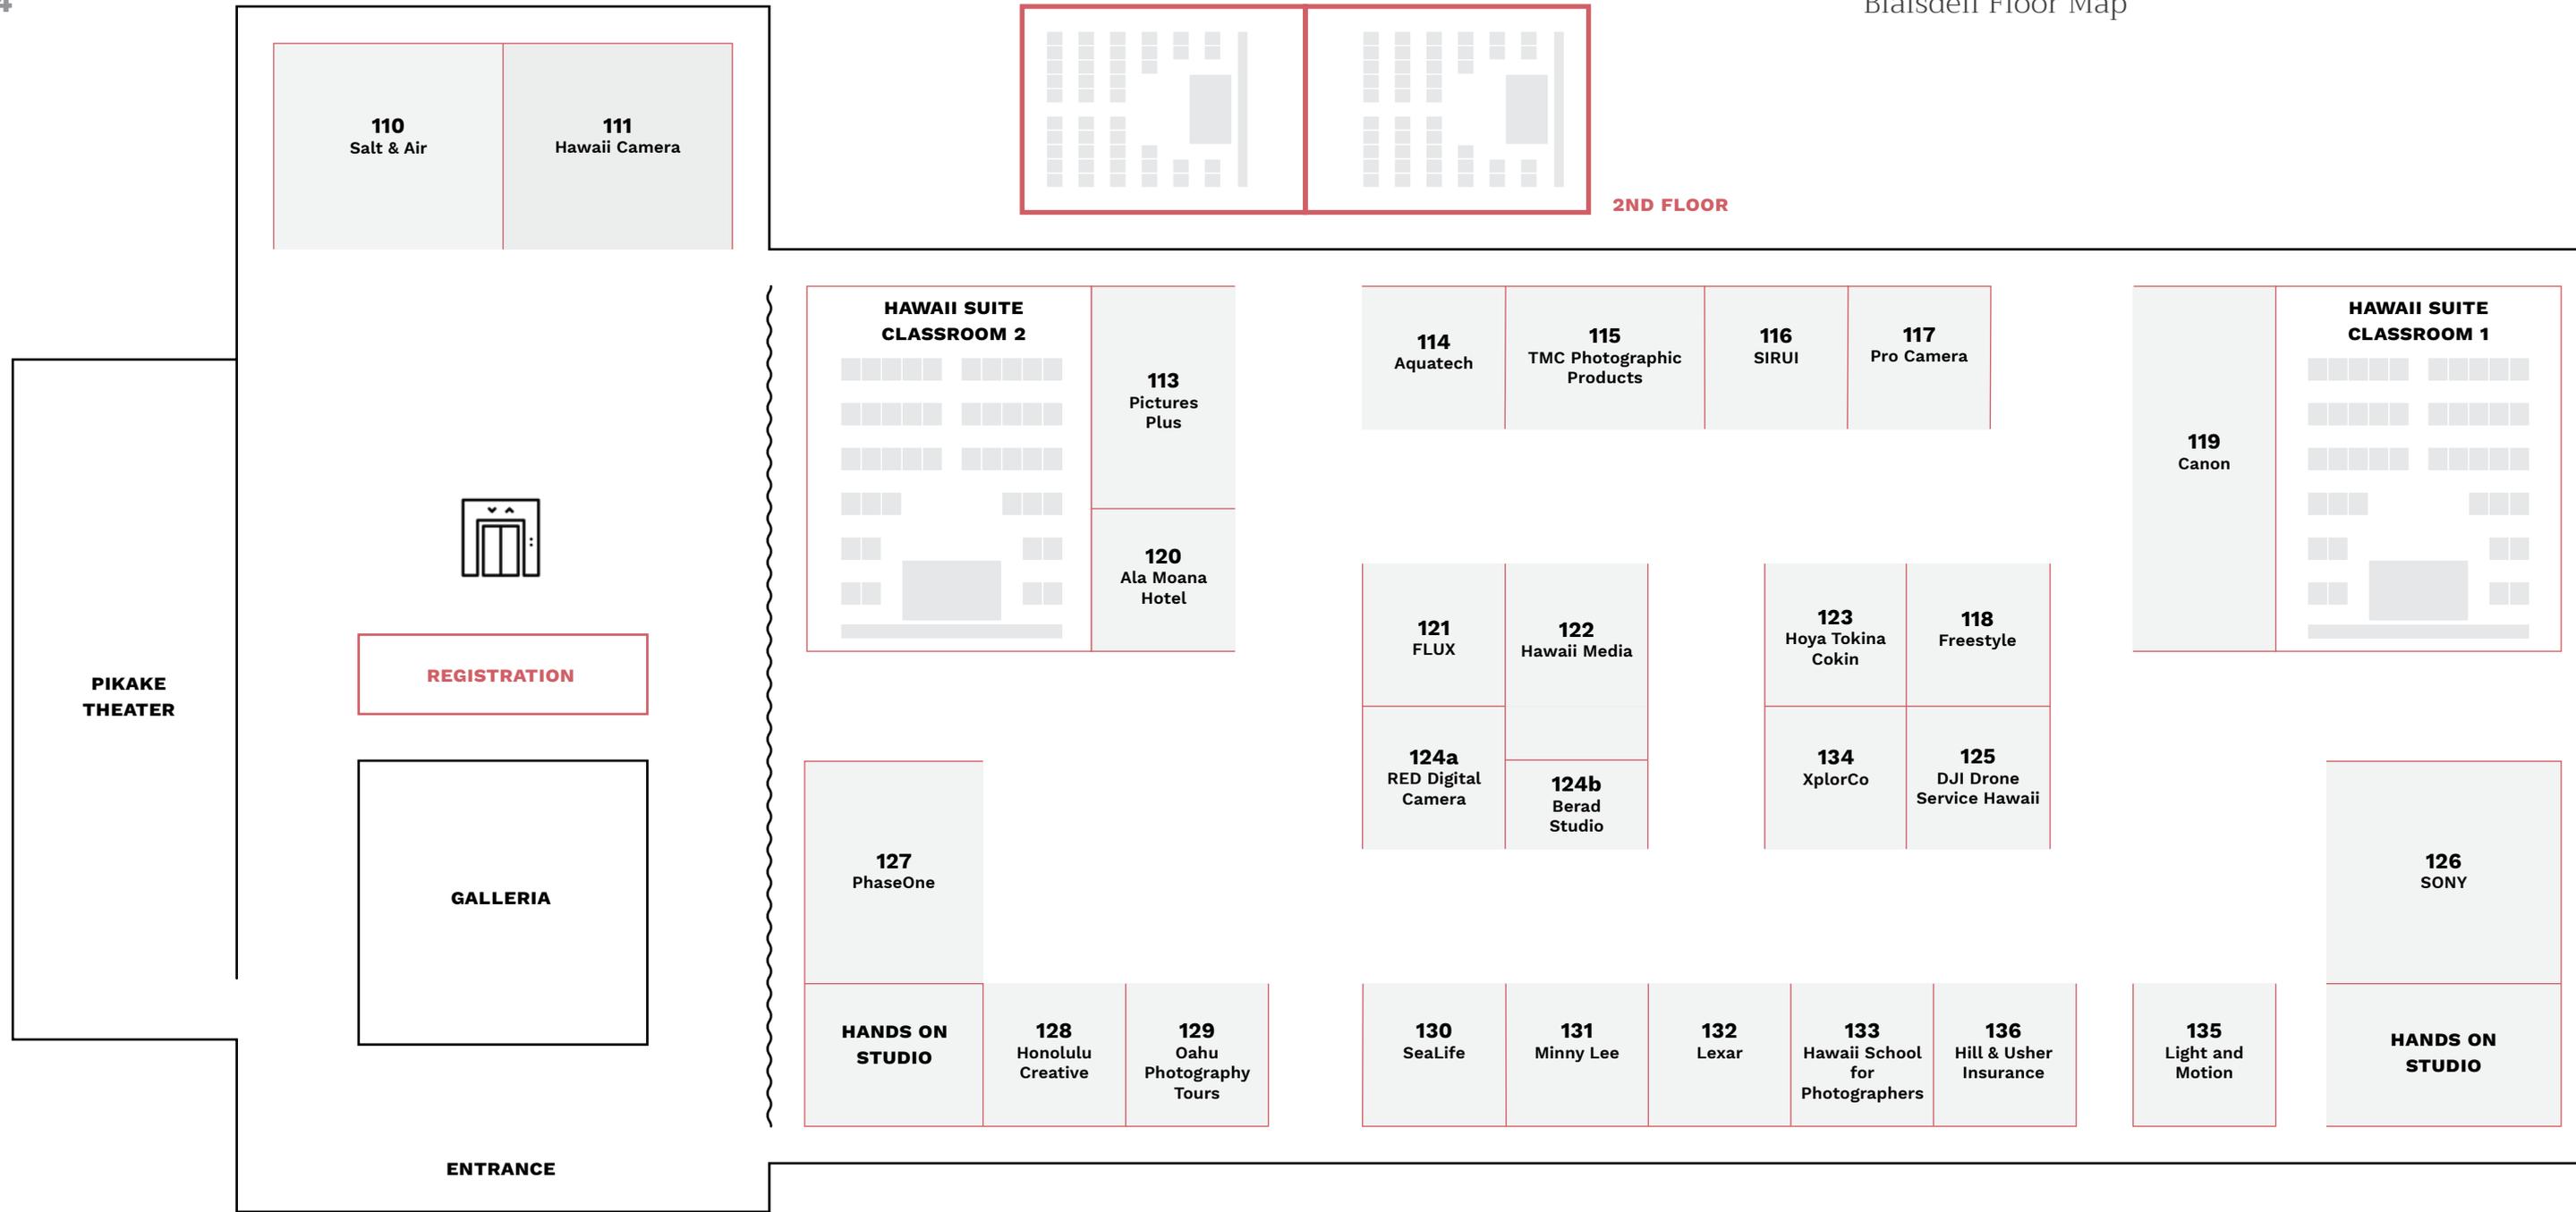

As everyone says at the Emmys" I could not have done this without my family" Denise, Zak, Sarah, Alex and of course Alika. I thank you! Be well my friends, enjoy everything!

## About “The Essence of Hawai‘i” Photo Contest

This statewide photo contest asked contestants to submit photos that captured one’s love for the islands. A total of 521 images were submitted from professional photographers, amateur photographers, students, visitors and all residents who are “like-minded

image creators” of Hawai‘i. The images had to have been created in Hawai‘i between 2017 – 2018 to be eligible for entry. Judges selected 1st, 2nd, and 3rd place winners, along with 31 honorable mentions. A special aerial photograph was selected as a DJI/Drone

Services of Hawaii award. All photographs were printed by Pictures Plus and will be displayed at the PhotoCon Hawai‘i tradeshow at the Neal S. Blaisdell Center, Hawai‘i Suites, and, in the future, in select galleries throughout our neighbor islands.
